

Family Artificial Intelligence (AI) Use Policy

Purpose

This policy provides guidelines for safe, responsible AI use in the family, supporting learning, creativity, and digital well-being.

1. Guiding Principles

- AI supports learning but does not replace human judgment.
- Use should promote safety, integrity, and respect.

2. Approved Uses of AI

Allowed: learning support, creativity, productivity, and skill development.

Not allowed: cheating, misinformation, harmful or deceptive content.

3. Privacy & Safety

Avoid sharing personal details with AI tools. Parent approval is required before uploading photos or documents.

4. Accuracy & Critical Thinking

AI may be inaccurate. Verify key information and seek adult guidance for health, safety, or legal matters.

5. Ethical Use

Users must not use AI to harm, impersonate, or deceive others. Acknowledge AI assistance when required.

6. Parent/Guardian Responsibilities

Model responsible AI use, approve tools, guide safety practices, and maintain open communication.

7. Review & Updates

Review this policy regularly to reflect evolving technology and family needs.

Acknowledgment

By signing below, family members agree to use AI tools responsibly, safely, and ethically.
